

River Dipping with Aqaulab

The children in Otter Class, Badger Class, Owl Class and Fox Class were offered the opportunity to go river dipping in The River Stour. We walked to Westgate Gardens and met Lauren from AquaLabs who ran our sessions. The children had a wonderful time learning about the life that can be found in the waters of the Stour, about Food Chains and about the danger of pollution to all the living things in the River. And no one fell in!
