

Parkside Community Primary School Caterpillars

Before the school had to close due to the current situation, we had five little caterpillars arrive. Mrs McLevy and Miss Thompson have taken them home and will share their development with you all.

Miss Thompson is sharing her pictures on the Parkside PTFA page on Facebook. Follow her caterpillar's development on there.

These are the ones Mrs McLevy took home and they have grown a lot since they arrived on Monday.

You could write a story about how you think they will change and grow.

Do you think they will go on an adventure and where would they go?

What colour do you think the butterflies will be?

Keep your eye on the website to see how quickly they will change.
