

The Queens Green Canopy

Parkside Community Primary School were so delighted to have been selected as one of 70 schools across Britain to receive a tree in celebration of the Queens platinum jubilee.

Pupils, staff, and special guests attended the ceremony and four pupils were chosen to help with the planting. After the ceremony the school 'pinned' their tree on a virtual map on the Queen's Green Canopy website so organisers can keep track of how many have been planted and other individuals and groups will be inspired to get involved.
